

## Module: m/09/101

*'Understanding timeware® job costing...'*

timeware® job costing covers creating new jobs, the job costing adjustment screen and the job costing anomalies presented on the agenda summary.

The screenshot displays the timeware software interface. On the left is a menu with options: Calculation..., Personnel..., Planner..., Absence Management..., Attendance, Job Costing (highlighted), Access Control, Realtime Locator..., Reporting, Export, Log Off - Admin, and Exit. The Job Costing menu is open, showing sub-options: Jobs... and Adjustments....

The main window is titled 'Jobs' and shows details for a 'Test Job'. It includes fields for Code (3353535), Status (In progress), Customer (ACME Ltd), and Product (Oak table). Below these are summary statistics and a detailed table of operations.

Job Information				Tgt job cost	Tgt job time	Actual cost	Actual time
